Research Question

compare revenue growth of tcs and infosys

Ask TrustRAG

## Research Output

Answer generated from the selected TrustRAG dataset and retrieved annual-report evidence.

## Key Findings

The revenue growth trajectories for TCS and Infosys show diverging trends between FY2024 and FY2025:

- **TCS:** Experienced a deceleration in revenue growth, moving from 6.8% in FY2024 to 6.0% in FY2025.
- **Infosys:** Experienced an acceleration in revenue growth, moving from 4.7% in FY2024 to 6.1% in FY2025.

By FY2025, Infosys slightly outperformed TCS in terms of annual revenue growth percentage (6.1% vs 6.0%).

## Evidence

### TCS Revenue Growth:

- FY2024: 6.8% [TCS | FY2024]
- FY2025: 6.0% [TCS | FY2025]

### Infosys Revenue Growth:

- FY2024: 4.7% [Infosys | FY2024]
- FY2025: 6.1% [Infosys | FY2025]

## Caveats

- **Scale Disparity:** The companies operate at significantly different revenue scales. TCS reported revenue of 255,324.0 in FY2025 [TCS | FY2025], compared to 162,990.0 for Infosys [Infosys | FY2025]. Percentage growth rates do not account for the absolute volume of revenue added.
- **Reporting Basis:** The provided data reflects reported revenue growth figures. The context does not specify if these figures are adjusted for constant currency fluctuations or other non-recurring items, which are standard considerations when comparing financial performance across multinational IT service providers.
